

ANURAG GOYAL

Senior Software Engineer | Full-Stack & Distributed Systems

Bangalore, India | Phone: +91 9179064410 | Email: goyal3114@gmail.com | LinkedIn: linkedin.com/in/anurag-goyal-349750128 | GitHub: github.com/Anuraggoyal3114

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 7+ years of enterprise experience designing, developing, and optimizing high-performance applications and cloud-native microservices. Expert in Java, Spring Boot, Spring Web-Flux, PostgreSQL, AWS, Docker, Kubernetes, and System Design. Proven track record in API latency reduction (70% reduction via streaming/compression), enterprise security hardening (~30 APIs integrated with Spring Security & RBAC), and operational workflow automation.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, Angular, HTML5

Frameworks & Web: Spring Boot, Spring Web-Flux, RESTful APIs, Swagger / OpenAPI, OAuth

Databases: PostgreSQL, Oracle, Redis

Cloud & DevOps: AWS (EC2, ECS, S3), Docker, Kubernetes, Jenkins, Git, CI/CD

Testing & Tools: JUnit, Mockito, Selenium

Architecture: Microservices, System Design, RBAC, API Security, Performance Optimization

PROFESSIONAL EXPERIENCE

Sr. Software Engineer | IBM — Bangalore, India (June 2024 – Present)

- Designed and implemented AI-based ETA Prediction system for file uploads using Gradient Boosted Decision Trees (GBDT) trained on historical upload data.
- Optimized backend APIs using response streaming and compression techniques, reducing response latency by ~70% while improving scalability.
- Integrated Spring Security into ~30 critical enterprise APIs to elevate access authorization and endpoint security.
- Developed Python automation scripts to automate operational workflows, reducing manual effort and improving execution reliability.

Software Engineer | Virtusa — Bangalore, India (May 2022 – June 2024)

- Developed and modernized scalable RESTful APIs by migrating legacy monolithic applications to Java Spring Boot microservices.
- Refactored core codebase to enhance maintainability, reduce technical debt, and ensure long-term stability.

Software Engineer | BCITS — Bangalore, India (Dec 2019 – May 2022)

- Implemented Role-Based Access Control (RBAC) using Spring Security for robust authentication and permission management.
- Built interactive JavaScript UI components and collaborated across frontend and backend systems for end-to-end feature delivery.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E) — Electrical & Electronics | R.G.P.V University / IES IPS Academy (2014 – 2018)

- Multiple Client Spot Awards for outstanding technical delivery.
- IBM Credentialed: Generative & Agentic AI Foundation.
